OPTIMATE™-471 LITHIUM CHARGER MAINTAINER .8A

The OptiMate™-471 Maintainer/Charger is weatherproof, lightweight and fully automatic. Though a lower amp charger, it is the most cost-effective solution for long term maintenance of 12V lithium batteries in any vehicle stored in or outdoors.

- Specialized LiFePO4 charge cycle – Saves low voltage LiFePO4 batteries
- Charging Amps: 800mA
- Weatherproof case for indoor/outdoor use
- Brings battery to full charge then switches to maintenance mode
- 8 Step Charging Program
- 3 Year Limited Warranty

OPTIMATE™-291 5-AMP LITHIUM CHARGER

Ultimate professional-level high-efficiency diagnostic Charger & Tester for Lithium batteries. Perfect for charging and seasonal maintenance of a 12.8V-13.2V LiFePO4 / LFP battery sized from 2 to 100 Amp-hour.

- Ampmatic™ – multi-step charging program recharges and balances cells
- SafeT™ – Charge rate automatically adjusted to ambient temperature to prevent damage in excessive hot or cold conditions
- Ideal for LiFePO4 (LFP) 4s/5s batteries from 2.5 -200Ah
- Charging Amps: 9.5A@12.8V / 7.5A@16V (AmpMatic)
- Weatherproof case for indoor/outdoor use
- Brings battery to full charge then switches to maintenance mode
- 10 Step Charging Program
- 3 Year Limited Warranty
