

CLUTCH KITS

STREET - 3 CHOICES

1. Standard - CK Series

The CK Series cork based clutch plates are an upgraded replacement for OEM applications. The kit includes a full set of friction plates only.

- **Impregnated with Aluminum Particles** - Increase wear life and heat resistance.
- **Highly Compressed Material** - Helps prevent swell and clutch drag.
- Ideal general purpose replacement for all grades and sizes of motorcycles.

Note: Do Not use fully synthetic oil

2. Race/Sport - SRC Aramid fibers Series

Aramid fiber lined plate set complete with heavy duty clutch springs designed for faster riders and production based race use.

- **Aramid Fiber Material** - Provides longer life and higher heat resistance.
- More aggressive/faster take up.
- Ideal for large displacement sport bikes

3. Race/Sport SRK Series

SRK complete kits include Aramid fiber lined friction plates, steel separator plates and springs.

- Complete Kit for high performance street & road race use
- Kits now available for bikes using **Diaphragm Springs!**
- Similar to DRC Program for Off-Road

DIRT / ATV - 3 CHOICES

1. Standard - CK Series

An all purpose upgrade replacement with all the technological advantages of the Cork based CK street series.

2. Race - DRC Series

The US #1 selling off road clutch!

- Anti-swell, alloy impregnated heavy duty cork based facing provide smooth clutch take up & modulation
- Complete Kit contains friction plates, HD springs and Steel Separator Plates
- Swaged aluminum carriers- spread the load on the clutch basket & prevent clutch basket "dogging"

3. DRC-F Clutch Kits

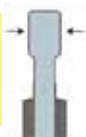

The ULTIMATE Moto-X & ATV heavy duty clutch kit designed for race use!

- Carbon Fiber lined clutch plates – feel better, grip better and last longer
- High heat ability handles much higher stress and temperatures encountered in racing with a gentle and smooth feel for everyday riding
- Ideal for high torque applications
- Kit includes full set of steel plates & heavy duty springs
- Replacement CKF Series friction plates available when entire kit is not needed

WHY IS EBC THE BEST?

Unique wide ear soft alloy drive body eliminates basket damage and delivers smooth clutch operation!

CKF Clutch Kits – Carbon Fiber replacement friction plates

- Replacement friction plates for DRCF kits, or use as upgrade friction plates with your stock clutch.
- Also available for select Street Applications

UNIVERSAL APPLICATIONS

CSK Clutch Spring Sets

EBC coil springs use new upgraded steel and state of the art precision measuring equipment to ensure precise and even spring tension. EBC coil springs are OEM upgrades, 15% stiffer than stock.

Diaphragm Clutch Springs

Now available for select applications!

Clutch Removal Tools

EBC clutch tools allow for easy install of all EBC clutch kits!

- Range covers 95% of motorcycles & ATVs
- Allows positive holding of Clutch Basket or Center Boss – allows tightening and retightening of securing nuts
