

CRUISER

EXHAUST SYSTEMS

Since 1984, when the first Rumbler hit the street, Jardine has continually redefined the Metric exhaust market. Every system is painstakingly made to exacting tolerances by skilled craftsman utilizing the latest in manufacturing techniques.

RT99 DIRT BIKE & ATV EXHAUST SYSTEMS

Designed using a Resonance Chamber on the head pipe, which helps reduce sound levels and increases power across the rpm range. The RT99 is designed for our amateur, and every day racers. It will easily pass the AMA standard for amateur racing, at 99 decibels!

RT4 DUAL SPORT EXHAUST SYSTEMS

Specifically designed for the KLR650, the RT4 Slip-on Exhaust is dyno tested with power-enhancing features such as smooth mandrel bends; taper-flowed tubing, race-style spring tensioned slip-fit connections and jewel-like TIG welding. It is constructed from CNC machined billet aluminum with high temperature silicone O-ring for proper sealing.
