BMW Kawasaki Can-Am Spyder

428 SERIES SHOCKS

- High performance and low cost.
- Deflective disc dampers & gas charge prevent oil foaming
- Aluminum body
- Threaded body for fine tuning spring pre-load to match riding style & load

428 SERIES SHOCK

Model	Year	11.1"	11.4"	Notes
KAWASAKI				
EX650 (Ninja 650)	2009-2015	428-1001B	428-1000B*	R74

MONOTUBE FORK KIT

- Converts dual damper rod, and damper rod cartridge to true high performance monotube cartridge forks!
- Improved Resistance to Front Brake dive
- Improved front end stability, cornering and bottoming control
- Stock and lowered versions available
- Available for Honda Goldwing, Kawasaki KLR 650 & multiple Harley Davidson applications!

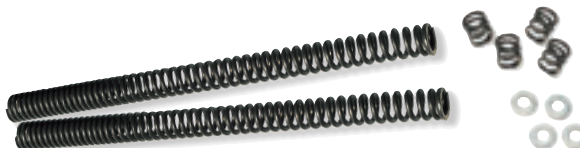

FORK SPRINGS

- Progressive wound springs have the ability to provide a plush ride over small road bumps yet firm enough to absorb the larger one
- Reduced front end dive and under braking
- Spring carry a lifetime warranty
- Available for many off-road and virtually all street applications!

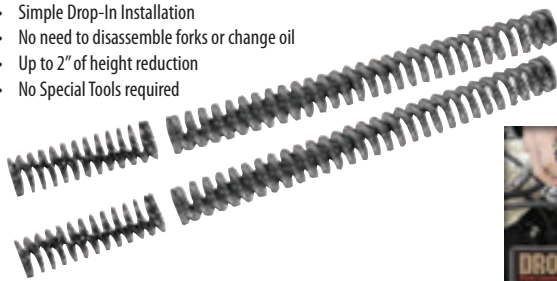

FORK LOWERING KIT

- Combine with shorter than stock rear shocks, to give your bike that low custom look!
- Kit comes with Progressive's famous progressive rate Fork Springs, spacers and instructions

DROP IN FORK LOWERING KIT

- Simple Drop-In Installation
- No need to disassemble forks or change oil
- Up to 2" of height reduction
- No Special Tools required
